□ HUMAN
<b>Common system-wide.</b> You never feel out of place anywhere in the system, even <i>Procyon</i> . You see humans and orcs everywhere you go and (almost) everyone speaks <i>Common</i> , so asking for directions is never a problem.
Social Dominance. Every major market in the world bases their services and products around human needs and human tastes, and the human-origin language of Northword is spoken, though not always perfectly, in nearly every corner of the world.
<b>Common system-wide.</b> You never feel out of place anywhere in the system, even <i>Procyon</i> . You see orcand humans everywhere you go and (almost) everyone speaks the <i>Common</i> tongue, so asking for directions is never a problem.
<u>Ordhauden Grit.</u> Your ancestors thrived in the harsh extremes of the Eastern Expanse on <i>Homeworld</i> so you can <b>better endure cold and heat</b> .
<u>Common Services.</u> Humans have <i>nearly</i> the same anatomy as orcs, so there is never any problem with using all of the human-oriented services everywhere in the world, including <i>medical</i> services.
□ DWARF
<b>Common on Homeworld and Procyon.</b> Though there are plenty of other dwarves and saurians to drink with in metropolises of <i>Homeworld</i> and <i>Procyon</i> , it gets harder to find another dwarf at karaoke in the small stations and settlements scattered throughout the system.
Short. You are a little under five feet tall.
<u>Muscular.</u> Though short, you are <i>all</i> muscle, so you are <b>as strong</b> , and <b>as heavy, as an average human</b>
SAURIAN
<b>Common on Homeworld and Procyon.</b> Though there are plenty of other saurians and dwarves to share stories with in metropolises of <i>Homeworld</i> and <i>Procyon</i> , it gets harder to find another saurian at the bar in the small stations and settlements that dot the system.
<u>Cold Blooded.</u> You require less food to survive (preferring one <i>large</i> daily meal), but it is difficult to <i>naturally</i> regulate your body temperature, so sudden temperature changes can be <i>harmful</i> .
<u>Brumation.</u> You are able to enter into a <i>deep slumber</i> where you require <i>no food or water</i> , but you <i>cannot recover cards</i> , and after <i>five days</i> you have to <b>make a</b> $C \triangleq Check$ <i>every day</i> .
<b>Very rare, but unremarkable.</b> Elves are in every piece of media in the system, especially <i>Homeworld</i> . Elves are everywhere you look, but you hardly ever meet one of your kin face-to-face. You'll occasionally hear about a meet-up online, but elves, like everyone else, are a <i>mixed</i> bag.

perceiving magic in a way similar to a sense of *smell*.

Slow Aging. You are going to live a long time (500-800 years or longer), because your aging is about five times slower than a human, so it took decades to mature, and your experience with time is skewed.

Magical Senses. You are naturally attuned to magic and are able to naturally sense magical energies,

GO	RI	IN

**Rare, and highly respected.** You kin is as ancient as the elves, but your ancestors hid as the world bent, and burnt, and changed. Today, your kin are *leaders* of space exploration. Goblin anatomy seems to be built for space travel, and goblin operators are in *huge* demand, *when* they can be found.

<u>Small.</u> You are a little over four feet tall, and much lighter and weaker than the average human.

<u>Stubborn Survivors.</u> You can survive on *miniscule* amounts of food and water in very extreme temperature ranges.

<u>Extreme Immunities</u>. You can get sick from disease, poison, radiation, and adverse gravity, but it takes *prolonged exposure*, and only very old Goblins (200 years or more) actually die from these causes. You also recover extremely quickly from the effects of these hazards.

## □ FAEKIN

**Extremely rare, and significant.** It's a brutally glorious and paralyzingly lovely universe, and you have an unyielding affection for this terrifying existence, even if it's always *exhausting*. It's hard for you to find anyone else that relates to you – even your Fae progenitors wandering *Procyon* seem so *foreign*. Luckily, you still manage to make friends, whatever soil you tread.

<u>Demi-Fae.</u> You have a unique and *beautiful* mutation from your Fae ancestry that makes you *clearly* stand apart from others, but it is sometimes *inconvenient*. What is your unique mutation?

<u>Presence.</u> 5,000 years ago the Fae nearly destroyed the world, but the original ancestral faekin saved it, and with the peaceful return of the Fae, reactions to you are mixed: fear, reverence, awe, curiosity.

## ☐ GOLEM

**Extremely rare, and memorable.** You were born from run-away magic and rich clay on *Homeworld*. Your ancestors were created as *tools*, but that magic seeped deep into the earth and you rose from the soil, fully formed and *independant*. Like all other Gods-Touched beings you make the most of *this* life, because even *clay* eventually turns to *dust*.

Of the Earth. You do not have to eat, sleep, or breath, and extreme heat, cold and radiation has no effect on you. You also do not feel pain, so while you can suffer Shock, it is due to structural integrity. You can never be knocked unconscious.

<u>Made of Clay.</u> You are naturally armored (1 AR). However clay does not heal naturally, and you need to magically attuned clay and healing rites to recover any Wounds. Fortunately most major hospitals have the capability to treat golems.
